## faqs

### How does the Start model work?

Each covered procedure is associated with a set reimbursable amount (Stat benefit amount). Members search for providers and view **Start benefit amounts** in our portal, schedule appointments, then self-pay for services. Members upload an itemized receipt to the Start app, then receive speedy reimbursement. **Start grants access to self-pay discounts without loss of coverage.** It is the only reimbursement model that offers an HSA.

### How will partnering with Start benefit my practice?

Not only will Start allow you to become part of the health insurance reformation, but insuring your practice through Start will **lower yours and your employees' healthcare costs.**
