

INDIVIDUAL HEALTH COVERAGE

Take 1 minute
to see what you
can save on your
monthly insurance
premium.
(Spoiler: It's a LOT.)

Get Started

starthealth.com/quote

Start has **NO** network restrictions.

Having no networks means **you have the biggest network of all**—every healthcare professional—period. Keep in mind that providers all charge different rates, so shop around.

Tiniest Premiums Around

Are you spending over \$1,000 per month on premiums for insurance you barely use?

No one wants to be without the safety net of health coverage, but most likely you are grossly overpaying for the coverage you need.

Start is a great insurance option for:

- » Small Business Owners
- » Independent Contractors
- » Professionals, including doctors, dentists, attorneys, financial planners, accountants, realtors, etc.

Additional Features

StartShield

Am I really covered if something goes wrong?

Yes! When you purchase the StartShield coverage rider all you have to do is call us. We'll do the work to plan, schedule, and pay for your care and make sure that everything after your deductible is covered.

HSAs & Investments

Health Savings Accounts (HSAs) are the most effective way to save on healthcare. They allow tax-free contributions, growth, and withdrawals. Their funds even roll over annually.

Your HSA funds can be invested, which is a genius way to take advantage of their tax-free growth.

No Surprise Billing

Start offers a predetermined reimbursement rate for all covered services. This helps you call and compare costs before you choose a provider.

After just a little research to determine the cost of care at their chosen facility, members know exactly how much they are paying out of pocket BEFORE they go through with a procedure. (In some cases, they may even earn money.) That's a level of security most Americans are living without.

White Glove Service

Not a fan of research?

Our **Care Coordinators** are happy to do the footwork for you.

With Start, **the Heap family** only pays
\$356 per month.

This is a monthly savings of
\$1150 in premium payments.

Of course, if you'd rather
spend an extra \$12,000+ per
year on insurance premiums,

that's your business.
